

ALCHEM NILA (NONYLPHENOL ETHOXYLATE FREE)

COMPOSITION :

ALCHEM NILA IS SPECIALLY BLENDED DEGREASING AND WETTING AGENT, WITH CHROME STRIPPING ABILITY! (NILA STANDS FOR CHROME STRIPPING AGENT!) LEATHER TREATED WITH PROPER AMOUNT OF ALCHEM NILA WILL RESULT IN SOFTER, MORE PLIABLE, MORE FLEXIBLE, AND TIGHTER GRAIN THAN NOT TREATED.

ALCHEM NILA WOULD ALSO STABILIZE THE pH OF WET BLUE, SINCE pH OF WET BLUES WOULD VARY FROM LOT TO LOT. IN ORDER TO OBTAIN REPRODUCIBLE LEATHER, THE INITIAL STARTING pH OF WET BLUE IS VERY IMPORTANT! ALCHEM NILA COULD ALSO BE USED AS BLEACHING AGENT FOR PELTS AND WET BLUES. (FOR THE PRODUCTION OF LIGHT COLOR AND WHITE LEATHER.)

APPLICATION :

- A. BLEACHING OF PELTS (0.6 % ON PELT WEIGHT, DURING DELIMING)
- B. CHROME STRIPPING OF WET BLUES (AVOID CRACKY GRAIN)
(2 - 5 % ON SHAVE WEIGHT)
- C. WETTING BACK OF WET BLUES (0.6 - 3% ON SHAVE WEIGHT)

PROPERTIES :

APPEARANCE :	YELLOWISH CLEAR LIQUID
ANALYSIS :	pH 0.5 - 1.5
ACTIVE INGREDIENTS :	70 %

PACKING : 140 KGS OR 160 KGS IN RECONDITIONED PLASTIC DRUM
